

MRD Sälj & Bygg AB

MRD Sälj & Bygg AB is a construction company exclusively for new construction, renovations and conversions, constructing only environmentally friendly and energy efficient buildings. We work with highly set requirements for delivering long-term, sustainable solutions and products that generate low running costs. Our environmental policy is to create a good environment both for us and for future generations. We deliver the right products from an environmental aspect and carry out our services without any faults.

Through product development and the new, unique construction technique – **Koljern™**, it is possible to create the climatic barrier of the whole house – basement slab – warm suspended foundation – external wall – tie beams without moist problems, a solution that will hold and work in generations.
