

# Flexiwaggon AB

FLEXI  
WAGGON

**Flexiwaggon is a patented wagon solution which enables faster and more cost-efficient combined transports for lorries, semi-trailers and other similar vehicles.** Flexiwaggon offers great combination possibilities since it is capable of transporting lorries, buses, passenger cars, containers, swap bodies, trailers with trailer truck - on one and the same wagon. The necessary equipment is integrated in the wagon.

The Flexiwaggon solution is interesting for customers and partners since it helps them to live up to their undertakings and comply with their environmental philosophies. The new solution yields in a wider perspective - Reduced transport costs - Substantially lower impact on the environment - Improved road safety. The company also offers logistics and transport solutions.
